Think Healthy!

Think Healthy is a program bringing children and their families simple, kid-friendly information on the connection between eating well and feeling good.

WATER WORKS!
Just like a plant, you need plenty of water to keep going.
It doesn’t have to be bottled water – water from the tap is fine!

WateR WoRKS!
Just like a plant, you need plenty of water to keep going.
It doesn’t have to be bottled water – water from the tap is fine!

Think Healthy!

Ready, Set, Go!
Help your body get ready to move!

Re-charge your body
❖ Get a good night sleep
❖ Eat healthy foods and drink enough water

Stay safe
❖ Wear your helmet, knee and elbow pads
❖ Pay attention to what’s around you
❖ Always have an adult nearby

Stretch
❖ Stretch before and after you exercise to get your body ready

Made possible by a grant from

The Children’s Health Fund (CHF) produces low-literacy, culturally relevant health education booklets and brochures to simplify complex medical issues affecting families and children. The materials make vital health information accessible to children, teenagers, parents and other care givers. They are created by clinicians within CHF’s national network and undergo an extensive review process, which includes external topic experts and cultural anthropologists. English and Spanish materials adhere to low-literacy writing and design conventions and are tested for appropriate reading levels.

Feel Fit!

Don’t feel like exercising
- No energy to move
- Get tired and lazy

Don’t get enough exercise
- Feel sad or depressed
- Feel out of shape

Be fit and ready to get moving

Feel good and full of energy

Feel bad and tired
- Feel out of shape
- Feel sad or depressed

Think 60

Too much TV and video games
- No energy to move
- Get tired and lazy
