How do I keep my teeth and mouth clean and safe?

- Brush teeth twice a day every day
- Use toothpaste, floss and rinse with water
- Get help from a grown-up
- Eat and drink healthy meals and snacks
- Avoid sticky and sweet snacks
- Visit a dentist!

The Children’s Health Fund (CHF) produces low-literacy, culturally relevant health education booklets and brochures to simplify complex medical issues affecting families and children. The materials make vital health information accessible to children, teenagers, parents and other care givers. They are created by clinicians within CHF’s national network and undergo an extensive review process, which includes external topic experts and cultural anthropologists. English and Spanish materials adhere to low-literacy writing and design conventions and are tested for appropriate reading levels.

Made possible by a grant from MetLife Foundation

**Dental Health**

means keeping your mouth and teeth clean, safe and free from germs

**Why is it important?**
- Helps you chew your food, talk clearly and smile brightly.
- Prevents holes in your teeth and bleeding from your gums.
- Prevents pain in your mouth.

**What do I need?**
- Toothbrush
- Toothpaste
- Floss

**How to Brush Your Teeth**

1. **STEP 1**
   - Put toothpaste on brush.

2. **STEP 2**
   - Gently brush teeth on all sides, gums, and tongue. Rinse.

3. **STEP 3**
   - Floss between teeth to remove food bits.

4. **STEP 4**
   - Rinse well two or three times.

5. **STEP 5**
   - Smile!

Brushing your teeth helps keep you healthy.
